The IC15 offers support and comfort. Firm feel makes it easier for turning. Pair with an icare bed or suitable on any base platform.

**IC15 HOMECARE MATTRESS**

**FIRM FEEL**

The IC15 mattress features the ActiveX84 material is the main comfort layer in this mattress. ActiveX is a high grade of elastic type foam which is responsive to temperature around inflamed areas. ActiveX will become softer as it becomes warmer. So around a pressure point it will always soften and allow the blood to circulate freely.

**PRESSURE REDISTRIBUTION**

- The IC15 mattress features the ActiveX84 material as the main comfort layer in this mattress. ActiveX is a high grade of elastic type foam which is responsive to temperature around inflamed areas. ActiveX will become softer as it becomes warmer. So around a pressure point it will always soften and allow the blood to circulate freely.

**SOLID SUPPORT FOAM BASE**

- XP Support foam is a high-density foam that is used in the bottom layer of the IC15. XP Support foam is an open cell material that breathes to allow air circulation but is high density to prevent bottoming out. This material will easily contour to any profiling bed.

**TEMPERATURE REGULATING COVER**

- The IC15 cover is made with the new BlueTec cooling fabric. This is an all-way stretch fabric to conform with body and mattress contour. It is under woven with a cooling yarn to regulate body temperature.

**VENTILATED BASE FABRIC**

- Vant fabric is a three-dimensional polypropylene material that has high air permeability and is antibacterial. We use this on the side wall of the IC15 mattress covers to greatly increase air movement.

**MEDICAL COVERS AVAILABLE**

- Zerotec fabric is a medical barrier fabric that has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This cover has welded seams and waterfall flaps for fluid control.

**CODES & SIZES:**

- **LONG SINGLE**
  - Code: IC15LS
  - Mattress Size: 2030 x 900

- **QUEEN**
  - Code: IC15Q
  - Mattress Size: 2030 x 1520

- **SPLIT QUEEN**
  - Code: IC15SQ
  - Mattress Size: 2030 x 760 (Per side)

- **KING SINGLE**
  - Code: IC15KS
  - Mattress Size: 2030 x 1070

- **LONG DOUBLE**
  - Code: IC15LD
  - Mattress Size: 2030 x 1350

**SPECIFICATIONS**

- No turn design reducing manual handling
- Anticrease XP base to allow easy contour for any profiling bed
- Standard cover MVTR: NA. Medical Cover MVTR (g/24h·m²): 1635.0 Average
- Medical Cover BS7175: Crib 5
- Waterlow ≤20
- To launder the cover in a washing machine, set the main wash to a minimum of 65°C for no less than 10 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C. The foam can be autoclaved at 134°C.

**HIGH RISK**

This rating is based on our average peak pressure of <24mmHg. For some high risk clients Icare Zerotec covers are recommended. The best way to assess a client on a pressure reducing surface is to monitor pressure points with visual checks over a period of 5 days.

**ICARE MEDICAL GROUP - HOMECARE BEDS & MATTRESSES CATALOGUE**

**10 Years Warranty**

**150mm Depth**

**SWL Minimum 43kg**

**SWL Maximum 242kg**
Middle of the range, the IC20 proves to be popular for most. The medium feel provides a soft feel but excellent support.

Medical cover’s available if required.

**CODES & SIZES:**

**SINGLE**
Code: IC2S  
Mattress Size: 1900 x 900

**DOUBLE**
Code: IC2D  
Mattress Size: 1900 x 1350

Code: IC2Q  
Mattress Size: 2030 x 1520

**LONG SINGLE**
Code: IC2LS  
Mattress Size: 2030 x 900

**LONG DOUBLE**
Code: IC2LD  
Mattress Size: 2030 x 1350

**SPLIT QUEEN**
Code: IC2SQ  
Mattress Size: 2030 x 760 (Per side)

**KING SINGLE**
Code: IC2KS  
Mattress Size: 2030 x 1070

**SPECIFICATIONS**

- No turn design reducing manual handling
- Anticrease XP base to allow easy contour for any profiling bed
- Standard cover MVTR: HA. Medical Cover MVTR (g/24h·m2): 1.635.0 Average
- Medical Cover BS7175: Crib 5
- Waterlow ≤20
- To launder the cover in a washing machine, set the main wash to a minimum of 65°C for no less than 10 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C. The foam can be autoclaved at 134°C.

**SWL**
- Minimum 32kg
- Maximum 228kg

- 10 Years Warranty
- 200mm Depth

**HIGH RISK**

This rating is based on our average peak pressure of <19mmHg. For some high risk clients Icare Zerotec covers are recommended.

Icare risk category ratings are based on average peak pressure, Therapist recommendation, case studies, industry comparison and the Waterlow scale. For some high risk clients Icare Zerotec covers are recommended. The best way to assess a client on a pressure reducing surface is to monitor pressure points with visual checks over a period of 5 days.
For clients who like a soft mattress, or who spend a long time in bed. The feel of the IC25 Mattress is best suited to aged or petite patients.

**IC25 HOMECARE MATTRESS**

For clients who like a soft mattress, or who spend a long time in bed. The feel of the IC25 Mattress is best suited to aged or petite patients.

**SOFT FEEL**

The IC25 mattress features the ActiveX 84 material is the main comfort layer in this mattress. ActiveX is a high grade of elastic type foam which is responsive to temperature around inflamed areas. ActiveX will become softer as it becomes warmer. So around a pressure point it will always soften and allow the blood to circulate freely.

**Solid Support Foam Base**

XP Support foam is a high-density foam that is used in the bottom layer of the IC25. XP Support foam is an open cell material that breaths to allow air circulation but is high density to prevent bottoming out. This material will easily contour to any profiling bed.

**Temperature Regulating Cover**

The IC25 cover is made with the new Bluetec cooling fabric. This is all way stretch fabric to conform with body and mattress contour. It is under woven with a cooling yarn to regulate body temperature.

**Ventilated Base Fabric**

Vant fabric is a three-dimensional polypropylene material that has high air permeability and is antibacterial. We use this on the side wall of the IC25 mattress covers to greatly increase air movement.

**Medical Covers Available**

Zerotec fabric is a medical barrier fabric that’s has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This cover has welded seams and waterfall flaps for fluid control.

**SPECIFICATIONS**

- No turn design reducing manual handling
- Anticrease XP Support base to allow easy contour for any profiling bed
- Standard cover MVTR: NA, Medical Cover MVTR (g/24h·m²): 1,635.0 Average
- Medical Cover BS7175: Crib 5
- Waterlow ≤20
- To launder the cover in a washing machine, set the main wash to a minimum of 65°C for no less than 10 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C. The foam can be autoclaved at 134°C.

**Pressure Redistribution**
XP Light foam is very responsive and microporous material allowing a high level of airflow. This is used in the top layer of the M2 mattress and is module cut to allow each square to move to body contour. This module cutting also allows for horizontal anti shear movement.

**Base & Rail Support Foam**
XP Support foam is a high-density foam that is used in the bottom layer and side rails of the M2. XP Support foam is an open cell material that breaths to allow air circulation but is high density to prevent bottoming out or side roll out. This material will easily contour to any profiling bed.

**Zerotec Cover**
Zerotec fabric is a medical barrier fabric that has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This is used for the cover of the M2 mattress. This cover has welded seams and waterfall flaps for fluid control.

- Mattress Size: 2030 x 1070

**QUEEN**
- Code: ICM4Q
- Mattress Size: 2030 x 1520

SPECIFICATIONS
- No turn design reducing manual handling
- Anti-sweat XP Support base to allow easy contour for any profiling bed
- Standard cover MVTR: NA, Medical Cover MVTR (g/24h·m²): 1635.0 Average
- Medical Cover BS7177: Crib 5
- Waterlow ≤20
- To launder the cover in a washing machine, set the main wash to a minimum of 65°C for no less than 10 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C. The foam can be autoclaved at 134°C.

**MEDIUM FEEL**

ActiveGEL material is a high grade of elastic type foam infused with cooling gel partials. This material is responsive to temperature and will become softer as it becomes warmer. So around a pressure point it will always soften and allow the blood to circulate freely. The Gel infusion helps to regulate overall temperature.

**Pressure Redistribution**
ActiveGEL is module cut to allow each square to move to body contour. This module cutting also allows for horizontal anti shear movement.

**Castellated ActiveGEL**
The ActiveGEL is module cut to allow each square to move to body contour. This module cutting also allows for horizontal anti shear movement.

**Base & Rail Support Foam**
XP Support base layer features deep cut springs allowing much more airflow and extension of lateral contouring. XP Support foam is an open cell material that breaths to allow air circulation but is high density to prevent bottoming out or side roll out. This material will easily contour to any profiling bed.

**Zerotec Cover**
Zerotec fabric is a medical barrier fabric that has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This is used for the cover of the M2 mattress. This cover has welded seams and waterfall flaps for fluid control.

**HIGH RISK**
This rating is based on our average peak pressure of <20mmHg. For more information refer to the icare pressure care manual.

Icare risk category ratings are based on average peak pressure, Therapist recommendation, case studies, industry comparison and the Waterlow scale. **10 Years Warranty**

**150mm Depth**

**ICARE MEDICAL GROUP - HOMECARE BEDS & MATTRESSES CATALOGUE**
The Latex mattresses are a low risk pressure mattress but provide a unique bounce back support which makes it easy for transfers. Suitable on any base platform.

LATEX MATTRESS

CODES & SIZES:

**LONG SINGLE**
Code: ICEFLS
Mattress Size: 2030 x 1070

**LONG DOUBLE**
Code: ICEFLD
Mattress Size: 2030 x 1350

**KING SINGLE**
Code: ICEFKS
Mattress Size: 2030 x 1070

**QUEEN**
Code: ICEFQ
Mattress Size: 2030 x 1520

**SPECIFICATIONS**

- No turn design reducing manual handling
- Waterlow ≤14
- Latex material will easier contour to any profiling platform
- Polycotton cotton tack and jump quilted cover

LOW RISK

This rating is based on our average peak pressure of <31mmHg. For some high risk clients Icare Zerotec covers are recommended. Icare risk category ratings are based on average peak pressure. Therapist recommendation, case studies, industry comparison and the Waterlow scale. For some high risk clients Icare Zerotec covers are recommended. The best way to assess a client on a pressure reducing surface is to monitor pressure points with visual checks over a period of 5 days.

Icaremedicalgroup.com.au | info@sleepsystems.com.au | 1800 105 853
The range of Icare pressure care overlays are designed to provide added pressure relief and comfort on an existing mattress. These overlays are heat and pressure sensitive causing them to soften around pressure points and inflamed areas. These overlays come in all the mattress sizes up to queen.

### CODES & SIZES:
