VERSAFLO3® SYSTEM

The Versaflo3 has been designed to combine high pressure care needs and comfort. Using a three layer technology, configured to create a comfortable sleep support surface while providing high pressure relief. The mattress foundation is an XP Support layer that reduces over immersion while enabling the mattress to profile. The mattress core uses adjustable cylinders that alternate air pressure to adjust the surface pressure points. ActiveX™ is used as the primary comfort layer to increase comfort and disperse pressure.

The easy to use pump, controls the pressure depending on the patient's weight. The air pressure can be manually adjusted to control the pressure and amount of air or set as a cycle for alternating pressure.

SPECIFICATIONS

Feel Rating	Medium
Mattress Height	200mm
Risk Category	High Risk
User Weight	20kg - 140kg
Warranty	2 Year Warranty

VERSAFLO 3 MATTRESS SYSTEM - AIR PUMP

Circulation Intervals	5min, 10min, 15min, 20min, static
Air Capacity	1.5~8L
Air Pressure	300~1200H ² O
User Weight	20~140kg

VERSAFLO 3 MATTRESS SYSTEM - MATTRESS

Material	Polyurethane, TPU + Fabric
Cover	Waterproof
Air Pressure	Level 4~5
Safe Working Load	150kg

BED CODES & SIZES

LONG SINGLE	ICVF3LS	2030 x 900mm
KING SINGLE	ICVF3KS	2030 x 1070mm

PRESSURE CARE

Risk Category High

This rating is based on our average peak pressure of <16.5mmHg.

icare risk category ratings are based on average peak pressure, Therapist recommendation, case studies, industry comparison and the Waterlow scale. For more information refer to the icare pressure care manual.
